Digital Photography Shooting Assignment- Point of View

Directions:

You will be required to submit **one** image for **each** of the following point of view concepts.

Tips/ Hints

-Consider both composition and point of view when completing each assignment.

Process for Day One

1. Set the camera to Manual mode and reset the camera.
 - a. Adjust the cameras settings, consider ISO, Aperture, and shutter speed. Also consider A/F area mode as well as focal distance.
2. Take several images that illustrate the point of view technique **Birds Eye View**

Process for Day Two

1. Set the camera to Manual mode and reset the camera.
 - a. Adjust the cameras settings, consider ISO, Aperture, and shutter speed. Also consider A/F area mode as well as focal distance.
2. Take several images that illustrate the point of view technique **Worms Eye View**

Process for Day Three

1. Set the camera to Manual mode and reset the camera.
 - a. Adjust the cameras settings, consider ISO, Aperture, and shutter speed. Also consider A/F area mode as well as focal distance.
2. Take several images that illustrate the point of view technique **Eye Level View**

Process for Day Four

1. Set the camera to Manual mode and reset the camera.
 - a. Adjust the cameras settings, consider ISO, Aperture, and shutter speed. Also consider A/F area mode as well as focal distance.
2. Take several images that illustrate the point of view technique **Becoming the Subject**

Process for Day Five

1. Transfer all images to your H drive.
2. Create a new folder called Point of View
 - a. Create Sub Folders for each of the Views that were shot
 - b. Organize your images into each of the folders
3. Choose one of each of your images from each view that you would like to submit and use Photoshop to Crop to an 8x10 size and edit to enhance the image. All editing performed should look natural.
4. Email the edited images as a JPEG format using the following naming
 - a. **Lastname_Firstname_POV1** (POV2, POV3, POV4)
 - b. Email Heading **Lastname_Firstname_POV_Per#**
